

Offshore wave energy conversion

Course outline

- Wave power technology
- Wave energy resource modelling
- Wave structure interaction modelling
- Wave energy conversion modelling
- Analitical and numerical exercises
- Miniprojects
- Integrative project

Audience

Any professional interested in energy's technologies with background in science or engineering.
Students looking for an innovator thesis subject.

Instructor

Jimmy Valencia
Lic. Physics UNMSM
MSc. Naval architecture and Ocean engineering U. Lisboa
PG. Data Science U. Lisboa
